

	Type	Product Name	Description	MATERIALS					APPLICATION		
				Steel	Cast iron	Al	Aerospace Alloys	Yellow metals	General Machining	HD Machining	Grinding
SUPREME	Soluble	<b>MECAFLUID SS 1001 ECO</b>	Boron and biocide free, low oil general purpose, multi metal , semi synthetic cutting fluid	*	*				*		*
	Synthetic	<b>MECAFLUID SYN 1001 ECO</b>	Boron and biocide free synthetic grinding fluid	*	*						*
	Soluble	<b>MECAFLUID SS 3001 ECO</b>	Boron and biocide free, general purpose, multi-application, multi-metal semi synthetic cutting fluid with EP additive	*	*	*			*	*	
	Soluble	<b>MECAFLUID SS 4001 ECO</b>	Boron and biocide free hard metal alloys, multi-application, semi-synthetic cutting fluid with EP additive	*	(*)	*	**	*	*	*	
	Soluble	<b>MECAFLUID SM 4001 ECO</b>	Boron and biocide free yellow metal cutting fluid complete with yellow metal inhibitors to stop staining, high oil content emulsion	*		*	*	**	*	*	
	Soluble	<b>MECAFLUID SM 5001 ECO</b>	Boron and biocide free aluminium multi-application, semi-synthetic cutting fluid with EP additive	*	*	**	*	*		*	
	Neat	<b>MECAFLUID NE 8 SYN</b>	Synthetic neat cutting oil suitable for grinding and cutting in sliding heads applications	*	*	*	*	*	*	*	*
PREM	Soluble	<b>MECAFLUID SS 3001 FF</b>	Formaldehyde free general purpose, multi-application, multi-metal semi-synthetic cutting fluid	*	*	(*)			*		*
STANDARD	Soluble	<b>MECAFLUID SS 3001</b>	General purpose, multi-application, multi-metal semi-synthetic cutting fluid with EP additive	*	*	*			*		*
	Neat	<b>MECAFLUID NO 23 EP</b>	Neat cutting fluid with EP additives suitable for cutting and boring of multi-metals	*	*	*	*	*	*	*	*

\* = Core \*\*Exceptional (\*) = suitable
